22nd February 2018

For the attention of Ioan Birladeanu President of the Romanian Canoe Federation.
Re – The Great Britain Men’s Canoe Polo Squad to visit for a training weekend in Bucharest
16th – 19th February 2018.

Dear Ioan,

I write to express our very grateful thanks to you for your very kind offer to host our Men’s Squad for a training weekend in Bucharest.

We have been overwhelmed by the generosity of your Federation and indeed the amazing efforts that so many people made, in order to make our weekend a success.

We felt very humbled by the kindness that we experienced before and throughout our stay with you.

Marian Baban was the perfect host and we cannot thank him enough for all the efforts he made in arranging and managing the event.

I am pleased to share with you that Adrian Budurean our Men’s Coach and all the players have offered their thoughts saying that ‘this has been the most effective weekend of training that we have ever had.’

It was the best start to 2018 that Adrian and I could have hoped for and we believe you all have contributed to what we hope will be another successful competition year for us.

We also hope that the friendships that were made and the help that we gave to your players will continue and stand as a good foundation for you all to make good progress towards attending a Major Championships in the near future.

It was for us all, a very rewarding experience, to be able to offer our help to such a receptive audience.

I will be making contact with Albert Woods to tell him about the wonderful hospitality and friendship we experienced and how I think that your progress in Canoe Polo will be sustained.

It is my intention to encourage him to contact you and try to help the Romanian Canoe Polo Team to develop and take its place in the International Programmes of the future.

I thank you again for all your hospitality and I hope if I can help further in any way you will let me know.

My Very Best Wishes,

Peter Montgomery

Great Britain Assistant Men’s Manager & Canoe Polo Performance.
